

Nicholas Primiano

Section 001

17 October 2016

Location	Measurement 1 (mm)	Measurement 2 (mm)	Average (mm)
Long length	31.66	31.61	31.64
Smaller base width (outside)	5.81	5.85	5.83
Larger base width (outside)	6.85	6.97	6.91
Inside center width	3.98	3.71	3.85
Top height	6.76	6.75	6.76
Bottom height (to end)	7.93	7.85	7.89
Cylinder thickness	0.75	0.76	.755

1. A precision of two decimal places was chosen. This was dictated by the precision of the measuring tool (caliper). Additionally, more precision would not be necessary to manufacture a paperclip.
